*My compliant application.  
As I want it.  
When I want it!*

# GxpQMS

## The Quality Management Software: compliant and auditable

### GxpQMS PERFECTLY MEETS ALL YOUR REQUIREMENTS

GxpQMS, a fully customizable quality platform, is designed to meet your unique needs. It includes a range of applications that facilitate tracking of your actions in line with international industry regulations. These applications can be easily adapted to comply with standards such as Good Manufacturing Practice (GMP), 21 CFR Part 11, EU Annex 11, and ISO standards. GxpQMS streamlines your audits and elevates your quality management.

#### **✕ CAPA: Non-compliance and Claims Management**

*Recording a non-compliance should be done quickly and simply to ensure compliant tracking. A Corrective and Preventive Action (CAPA) plan is essential to maintaining an efficient quality control system and meeting regulatory requirements.*

- ✦ Recording of non-compliance and claims with fields tailored to your industry
- ✦ Rapid recording of corrective and preventive actions
- ✦ Real-time tracking of action progress
- ✦ Step-by-step validation: through workflows calibrated to your specifications.
- ✦ Time-saving in processing and validation.
- ✦ Process tracking through dashboards.

## Change Control

*Managing changes within a company is a significant concern in many industries. It requires constant alignment with regulatory developments, method adjustments, and technologies. It is crucial to ensure optimal process supervision and, ultimately, the final product quality.*

- ✦ Managing change processes fully transparently: impacts, analyses, risks, etc.
- ✦ Traceability of all actions.
- ✦ Control of the necessary documentation for each Change Control.
- ✦ Add all the required details to avoid failure.
- ✦ Process tracking with macro and micro views of changing elements.

## Quality Documentation Management

*Organizing documentation related to the Quality Management System is central to ensuring compliance and traceability of elements for each application.*

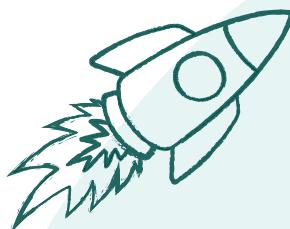

- ✦ Facilitates the creation & addition of documents in the quality process.
- ✦ Quick and simplified access to documentation in managing internal and external audits.
- ✦ Collaborative document writing with version control.

## Training Management

*Training management ensures tracking professional training and the evolution of your employees' skills.*

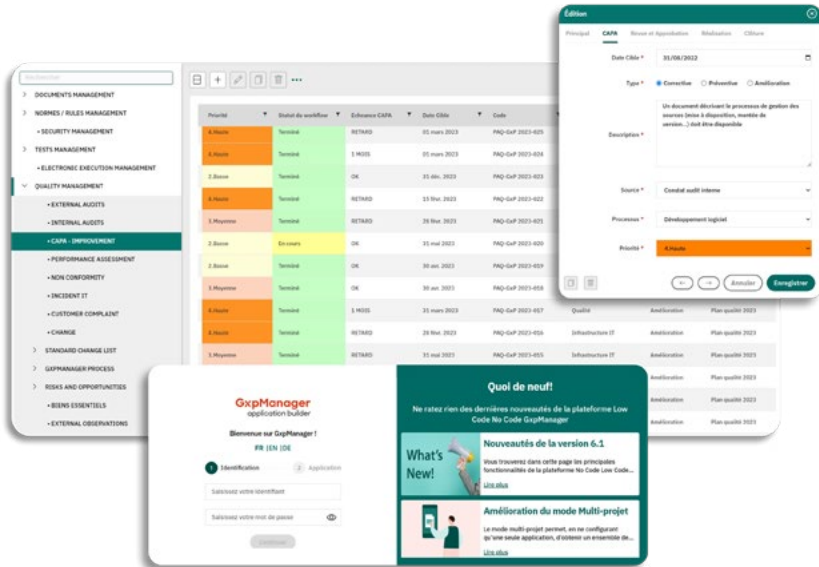

- ✦ Training tracking.
- ✦ Reading tracking.
- ✦ Workflows and notifications.

# GXPManager: THE NO-CODE/LOW-CODE PLATFORM

GxpManager has been a software editor since 2003. It offers a No-Code/Low-Code platform in a SaaS architecture. The GxpManager platform facilitates real-time information and secures critical data.

- ❖ 100% customizable
- ❖ Data integrity
- ❖ Simplified collaboration
- ❖ VaaS (Validation As A Service)
